

Jump-Start Program

Building Efficiency & Resiliency in Florida

▶ Apply for a chance to be awarded a fully paid DOAS A/C unit

If you're looking to improve your building's air quality, energy efficiency, and overall comfort, this program offers a unique opportunity. Blue Frontier™ is managing a grant that **covers 60% to 100% of the cost** of a Dedicated Outdoor Air System (DOAS) for qualifying commercial buildings in Florida. Priority will be given to high-impact showcase projects that can be implemented quickly.

Blue Frontier™ is a high-growth, high-impact South Florida-based company. The company has received numerous accolades such as *Bloomberg Pioneer*, *2024 MIT Technology Review Company to Watch*, and *2024 GrowFL Company to Watch*.

▶ Frequently Asked Questions

✓ How does this Jump-Start Program benefit Florida's cooling needs?

This program aims to help commercial and light industrial buildings meet or exceed outdoor air ventilation requirements, while supporting our local community, which is highly dependent on air conditioning.

✓ What makes your DOAS units superior to conventional systems?

A Dedicated Outdoor Air System (DOAS) from Blue Frontier enhances indoor air quality by improving ventilation and precisely controlling humidity.

Blue Frontier's DOAS features include:

- ▶ **3 Times More Efficient**
- ▶ **Over 50% Less Electricity**
- ▶ **Independent Temp. & Humidity Control**
- ▶ **Energy Storage Included**

✓ How much of the unit and installation cost will be covered by this program?

Depending on the project, the grant covers 60% to 100% of the total cost, with full funding available for select high-impact projects.

✓ What are the eligibility criteria?

This program is open to commercial and light industrial buildings in Florida, with installations required by **April 1, 2025**. High-visibility projects will get priority.

✓ How do I apply, and who can I contact if I have questions about the program?

Begin by going to bluefrontierac.com/application and filling out the form.

For questions or support, contact Matt Kruse, Blue Frontier's Area General Manager, at matt.kruse@bluefrontierac.com

Apply for a grant today and seize the opportunity to boost your building's efficiency, gain independent control over temperature and humidity, and experience a new standard of comfort!
